While a call is in progress you can use the call window to:

- Put the call on hold.
- Mute your microphone.
- Access the keypad.
- Turn on loudspeaker.
- Send video.
- Switch the call to another device.
- Merge calls.

The other person will receive a prompt inviting them to switch on their video too. Click on the Video icon at any time to turn off your video feed.

Switch the call to another device

If the call has poor audio due to an unreliable Wi-Fi or mobile data service connection, you can touch the Switch icon and select This device (cellular) to move the call to your regular cell phone. Remember that the call will now start to use your mobile minutes.

Alternatively, you can choose to push the call to another of your devices running MaX UC, such as your desktop or your iPad. Touch the Switch icon and select Another device to push the call to whichever device is most convenient.
